**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-11 and 16-26, drawn to an apparatus and method for controlling extracorporeal blood flow, classified in class 604, subclass 6.11.
  - II. Claims 12-15, drawn to a method of making a fluid control cassette comprising plastic molding, classified in class 425, subclass 130.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions in Groups I and II are related as process of making and product made.

The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the plastic molding process claimed can be used to make cassettes other fluid handling that does not require the particular tubing configurations, apertures, and ridges required by the instantly claimed cassette.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Todd Volyn on 25 October 2005 to request an oral election to the above restriction requirement, but did not result in an election.

Applicant is advised that the reply to this requirement must include an election of the invention to be examined even if the requirement is traversed (37 CFR 1.143).

Art Unit: 3761

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
